PROGRAM**

39TH ECC EUROPEAN CONGRESS OF CYTOLOGY

MILAN, SEPTEMBER 20TH-23TH, 2015

The innovative and focused scientific program will handle all aspects of cytology from A to Z. The highlights of 39th ECC will be:

- Scientific Sessions of the Main International Scientific Cytology Societies
- Innovative Technology in Cytology:
 - Tele-Cytology
 - Remote Training
 - Remote cytology diagnosis via Satellite/Internet for developing Countries
- Cytology in a multidisciplinary context.
- Quality Control
 - Quality Assessment
 - Quality Improvement
- Requirements for Training Cyto-technologists and Pathologists
- Unique opportunity to reach not only cytologists but also several specialty audiences in one location

Welcome Message

The Italian Society of Pathology and Cytodiagnostics-Italian Division of International Academy of Pathology (SIAPEC-IAP), jointly with the Italian Society of Cytology (SICi), has the great pleasure and honor to organize the 39th European Congress of Cytology, on behalf of the European Federation of Cytology Societies (EFCS).

It will be held in September 20th-23th, 2015 in Milan in the Centro Congressi di Milano (MICO) during the 2015 Universal Exposition EXPO, which will offer visitors a veritable journey around the world, through the cultures, histories and innovations of over 140 participating countries.

The focused scientific program of the Congress will handle all aspects of cytology from A to Z. The highlights of the 39th ECC will be: Innovative technology in cytology; cytology in the multidisciplinary context; quality control; quality assessment and improvement and the requirements for training cyto-technologists and pathologists.

It will be a unique opportunity to reach expert cytopathologists coming from every part of Europe and beyond, as well as several specialty audiences in one location.

In addition to the most recent advances of the art, several practical cytology issues will be addressed in a number of workshops and slide seminars.

I am sure that participation in this event will provide the opportunity to combine days of intense and constructive work with the possibility to establish new scientific collaborations and new friendly interactions. I wish everyone willing to participate an interesting and pleasant stay.

See you in Milan.

Luigi Di Bonito,
President of the 39th European Congress of Cytology

SATELLITE SYMPOSIUM OF THE JAPANESE SOCIETY OF CLINICAL CYTOLOGY

Session 1: New topics of endometrial cytology-Toward the standardization of the descriptive reporting system and interpretation of endometrial cytology

Chairmen: D. Aoki(Japan) and F. Fulciniti (Switzerland)

Introduction:

Potential for Screening of endometrial carcinoma by LBC technique
Y. Hirai (Japan)

Assessment of endometrial pathology: diagnostic reproducibility in LBC samples

Y. Maeda (Japan)

Expression of PTEN in endometrial LBC

A. Di Lorito (Italy)

Utility of LBC in endometrial cytopathology

Y. Norimatsu (Japan)

Classification of endometrial lesions by nuclear morphometry features extracted from LBC sample

P. Karakitsos (Greece)

Session 2: Thyroid fine needle aspiration, update

Chairmen: Z. Naito (Japan) and M. Hirokawa (Japan)

Cytological contribution to Health Management Survey for Fukushima Nuclear Power Plant Acciden

A. Sakamoto (Japan)

Serum Thyrotropin, as a Useful Tumor Marker in Patients with Negative Diagnosis of Thyroid Fine-Needle Aspiration Cytology

T. Koshikawa (Japan)

Cytopathologic and genetic features of pediatric thyroid carcinoma

T. Kondo (Japan)

Cytological characteristics on LBC specimens

M. Hirokawa (Japan)

Reporting System for Thyroid Cytology

G. Fadda (Italy)

SEPTEMBER 20th

**14.30 - 17.30 PAPANICOLAOU SOCIETY OF CYTOPATHOLOGY
ADVANCES IN THE CYTOLOGICAL DIAGNOSIS OF
LUNG CANCER AND MALIGNANT MESOTHELIOMA**

Chairmen: C. Bedrossian (USA) and Z. Baloch (USA)

- 14.30** The Papanicolaou Society of Cytopathology Guidelines on Respiratory Cytology Samples in Advance of Recommendations
L. Layfield (USA)
- 15.00** The International Mesothelioma Interest Group Guidelines for the Cytopathological Diagnosis of Epithelioid and Mixed Malignant Mesothelioma
A. Hjerpe (Sweden)
- 15.30** The Cytopathological Distinction between Lung Cancer and Malignant Mesothelioma: a Phenotype-Based Approach
C. Bedrossian (USA)
- 16.00** Usefulness of Immunohistochemistry in the Cytopathological Diagnosis of Malignant Mesothelioma and its Mimics
C. Michael (USA)
- 16.30** Sensitivity, Specificity and Reproducibility of Cytology in the Diagnosis of Malignant Mesothelioma in Pleural Effusions
A. Fassina (Italy)
- 17.00** Panel Discussion

YELLOW 2 ROOM

14.30 - 17.30 SATELLITE SIMPOSYUM OF THE RUSSIAN SOCIETY OF CYTOLOGY

Up-to-date Cytology in Russia

Chairman: Irena Shabalova (Russia)

- 14.30 Liquid-based cytology in comprehensive diagnostics of thyroid diseases
I. Shabalova (Russia)
- 14.45 MicroRNA Expression Profiling and BRAF Testing to Improve Diagnosis of Thyroid Tumors
N.N. Kolesnikov (Russia)
- 15.00 Rapid immunocytochemistry of serous fluids in difficult diagnostic cases
B.V. Suchinova (Russia)
- 15.15 Cytologic findings in Progressive Multifocal Leukoencephalopathy
Y.K. Batoroev (Russia)
- 15.30 Contemporary abilities of cytological diagnostic of breast tumours
M.V. Savostikova (Russia)
- 15.45 EUS - FNA of cystic and solid pancreatic lesions: possibilities and limits
I. Kostyuchek (Russia)
- 16.00 Value and capabilities of cervical cytology in HSIL cases
E. S. Fedoseeva (Russia)
- 16.15 Pap test and p16/Ki67 coexpression in triage of HPV-positive women
O.Y. Shipulina (Russia)
- 16.30 Gastric cytology as a tool for detecting and management of neoplastic and non-neoplastic lesions
L.V. Nikitina (Russia)
- 16.45 Cytology training in the Russian Medical Academy of Postgraduate Education
T.V. Dzhangirova (Russia)
- 17.00 Diagnostic value of laboratory methods for detection of Trichomonas vaginalis in the male population
Z.Y. Sapozhkova (Russia)
- 17.15 Discussion

DATE	TIME SLOT	TOTEM 1	TOTEM 2	TOTEM 3	TOTEM 4
20 Sept	17.30 - 18.45	Gynaecological Cytology	Others	Thyroid	Salivary Glands + Lymph nodes
21 Sept	13.00 - 14.00	Gynaecological Cytology	Respiratory tract	Brain + Breast	Effusions
22 Sept	13.00 - 14.00	Gynaecological Cytology	Gastrointestinal + Liver and Pancreas	Urine + Soft Tissues	Molecular biology

POSTER SESSION

20 September

Topic: Gynaecological Cytology

Totem 1

Time schedule	Abstract Title	Presenting Author
17.30	Predicative values of conventional cytology; liquid based cytology and hpv-detection as primer screening tests for early detection of cervical cancer and its precursors.	Antonija Trauner
17.34	Smoking behavior and obesity correlated with cervical cytology in pedy, larissa-greece.	Aspasia Bizigkou-Chasioti
17.38	Prevalence of gynecologic infections observed in conventional smears and thinprep preparations (1997-2014) in mubarak al-kabeer hospital, kuwait	Azza Al-Shaheen
17.42	Asc-h cytology - follow up and clinical outcome	Bazdarić Danijela, Matić Iva
17.46	Type-specific prevalence of Human Papillomavirus infection in women of northern Greece	C. Zioga
17.50	Cervical gastric type adenocarcinoma with initial positive pap smear test and hpv-18 dna test	C. Zioga
17.54	External quality control of gynecological cytology an interobserver agreement diagnostic study	F. Alameda
17.58	Prognostic value of hpv typing in asch cases	F. Alameda
18.02	Do not underestimate the atypical glandular cells: a rare carcinoma on pap smear	Gonca Ozgun
18.06	Quality control in cervicovaginal cytology by cytohistological correlation	N.Izadi-Mood
18.10	Normal-appearing endometrial cells in pap tests of women aged forty years or older and cytohistological correlates	N.Izadi-Mood
18.14	Supraclavicular lymph node enlargement as the initial manifestation of cervical cancer	Panagiota Mikou
18.18	Correlation between hpv typisation and pap smear among serbian women in last decades: our experience	V.Krsic
18.22	Correlation between hpv typisation and pap smear among serbian women in last decades: our experience	V.Krsic
18.26	Do cytothechnologist still have the most important role in fight against cervical cancer and how this work impact on themselves?	V.Krsic

Totem 2

Time schedule	Abstract Title	Presenting Author
17.30	Ultrastructural changes of thymus caused by pttg gene deletion	A. Dovgalyuk
17.34	Secrets of polynuclear neutrophils	Adda Affaf
17.38	Langerhans cell histiocytosis: a case report of ct guided fnab and immunocytochemistry	Ahmed El-Habashi
17.42	Anal hr-hpv prevalence assessed with the cobas hpv test in hiv infected men who have sex with men	Ana Rodrigues-Pereira
17.46	Fine needle aspiration of head and neck masses	Anna Vardouli
17.50	A pilot study evaluating fine needle aspiration cytology of clear cell renal cell carcinoma: ancillary immunocytochemistry and cytomorphologic comparison of surepath™ liquid-based preparations with conventional smears	Chang Lim Hyun
17.54	Implementation of experiential learning in histopathology and cytopathology: the hipon e-learning platform	G-H. Thomopoulou
17.58	Xp 11.2 translocation associated renal cell carcinoma. A cytopathologic report showing characteristic hyaline globules	Hyun Lee Yim
18.02	Myeloma cells cytomorphology and morphometry in comparison with ki67 and nf-kappa b expression and clinical stages	Irena Seili-Bekafigo
18.06	Eurocytology project 2013-2015: the contribution of the Czech Republic.	J. Duskova
18.10	Unusual clinical presentation of cytomorphologically diagnosed kala-azar	Koraljka Gjadrov Kuvezdić
18.14	Small nonfunctional parathyroidal cyst: diagnostic and therapeutic challenges	Lj. Fustar Preradovic
18.18	Ergonomic practices associated with microscopic use among cytotechnologists	Lois E. Rockson
18.22	Cytodiagnosis of merkel cell carcinoma	Mallory Tetrault
18.26	Diagnostical methods of abdominal tuberculosis	Natia Gujabidze
18.30	Study of lesions of the clavicle by fine needle aspiration cytology	R. G. W. Pinto
18.34	Myogenic muscle cells in peritoneal washings after uterine morcellation: comparative analysis of different cytological techniques	Romana Korlat
18.38	Fine needle aspiration diagnosis of merkel cell carcinoma	S. Skeuoudi
18.42	Triple synchronous cancers : gallbladder carcinoma, urinary bladder carcinoma and squamous cell carcinoma of the skin - a case report	S. Skeuoudi
18.46	The effect of small amounts of formaline in surepath when establishing protocols for immunocytochemistry	Torill Sauer

POSTER SESSION

20 September
Topic: Thyroid

Totem 3

Time schedule	Abstract Title	Presenting Author
17.30	Abnormal fna thyroid results and cyto-histopathological correlation	Adam Goodchild
17.34	Six years' experience using the bethesda system for reporting thyroid cytopathology in mures county hospital	Angela Borda
17.38	Cytologic features of sclerosing mucoepidermoid carcinoma with eosinophilia of the thyroid gland : a case report	Chang-Soo Park
17.42	Hurtle cell metaplasia indicates benign lesions of thyroid on fine needle aspiration	E. Tsouma
17.46	The diagnostic value of "liquid base smears" and "cell block preparations" in evaluation of thyroid nodules	Elahe Keyhani
17.50	Cytomorphologic features in thyroid nodules read as "suspicious for malignancy" on cytology may predict thyroid cancers with the braf mutation	Hyeong Ju Kwon
17.54	Computer assistant diagnosis of thyroid cytology using convolutional neural networks	Ji Yun Jeong
17.58	Cytologic features of monophasic synovial sarcoma of the thyroid gland: a case report	Jong-Hee Nam
18.02	Medullary carcinoma of thyroid; a pitfall in aspiration cytology of the thyroid, a case report	Mahi Balci
18.06	'Naked' nuclei in thyroid paraganglioma: a clue to diagnosis by cytology cytology	Mana Taweevisit
18.10	Fna diagnosis of extramedullary hemopoiesis in thyroid, two cases.	Nerea Torrecilla
18.14	Classification and regression trees to evaluate thyroid cytomorphological characteristics	Nikimargari, Petros Karakitsos
18.18	Usefulness of liquid-based cytology (lbc) of thyroid lesion	Noriko Motoi
18.22	Usefulness of liquid based cytology (lbc) of thyroid lesion; combination of morphologic and molecular analysis.	Noriko Motoi
18.26	Malignancy rates in bethesda category aus/flus; single center experience	Nuray Can
18.30	Unexpected guest of papillary thyroid carcinoma coming from kidney; a case report	Nuray Can
18.34	The modern approach to differential diagnosis of thyroid diseases.	Olga Brynova
18.38	Atypia of undetermined significance (aus) in thyroid fine needle aspirations (fna): follow up and outcome experience in newfoundland, canada.	Polycarp Erivwo
18.42	Inflammation and cancer. Coexistence of hashimoto's thyroiditis and papillary thyroid carcinoma.	S. Divani
18.46	Hypercellular adenoma of the thyroid: a case report with cytological and histological features.	Samir Saadi
18.50	Cytomorphologic features distinguishing bethesda category iv thyroid lesions vs. Parathyroid	Simon Sung
